*Re: Waterbury Generation Project
Petition No: 831*

Dear Mr. Caruso:

I am writing this letter in support of FirstLight Power Resources Waterbury Generation Project, a project consistent with the city's efforts to redevelop urban brownfields and turn these properties into productive, tax producing land use.

The City of Waterbury appreciates FirstLight's public outreach efforts and will lend its support to the Waterbury Generation Project. Should you have any additional questions or require further information, kindly contact Mr. Joseph Geary, Director of Operations at (203) 574-6712.

Sincerely,

*Michael J. Jarjura
Mayor, City of Waterbury*
